

# Incident Module

Our incident management software is a smarter way to **manage all safety incidents digitally with a clear evidence trail and automated reporting.**

The smarter, paperless way to **remain compliant and protect your brand 24/7.** You can log incidents in seconds, investigate, allocate, sign off and breathe - it's all under control!

Plus, simply glance at your compliance dashboard to **identify incident patterns** or use granular filtering to **find and address safety weak spots.**

## Main Features

|   |   |
|---|---|
| A clear & digital communication trail           | ✓ |
| Unlimited access to investigations              | ✓ |
| Identify trends and patterns with ease          | ✓ |
| Assign action plans to staff to correct issues  | ✓ |
| Customise your own approval workflows           | ✓ |
| Upload any evidence: documents, labels, imagery | ✓ |
| Visualise all investigations from one dashboard | ✓ |

## Incident Reports specifically tailored to you

Stay on top of your workplace safety and complete incident reports specifically tailored to your brand, with either **generic templates with added branded imagery** or **bespoke incident report templates** built by our team. Templates include Health & Safety, Food Safety, Fire Safety, Security, Maintenance and more.

## No internet? No problem!

Bad signal or no WiFi? Our Incident Module **works offline** too! Fill in your investigation as usual and the data will be pushed into the system on your next connection with WiFi. **Never miss a thing.**
